HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

Election/Restrictions

The restriction of record is maintained. The withdrawn claims are not rejoined because these claims are not commensurate in scope with allowed claims 6-9 or do not claim a method of using or making the allowed apparatus. Regarding claims 14-21, it is noted that these claims were not included in a specific group at the time of restriction; because claims 14-21 did not claim a recognized class of statutory subject matter (i.e. "use claims" are not a recognized class of statutory subject matter).

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Charles E. Van Horn, Esq. on January 27, 2010 at ~4:23 pm EST.

The application has been amended as follows:

(1) Cancel claims 1-5 and 10-21.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest a dry powder inhalation system comprising (1) a vessel housing a freeze-dried composition in a non-powder cake form characterized by (i) a disintegration index of 0.05

Art Unit: 1616

or more and (ii) a property of becoming fine particles having a mass median aerodynamic diameter of 10 microns or less or a fine particle fraction of 10% or more upon receiving an air impact having an air speed of at least 1 m/sec and an air flow rate of at least 17 ml/sec and (2) a device comprising a member capable of applying said air impact to the freeze-dried composition in said vessel and a member for discharging the freeze-dried composition that has been made into fine particles. The closest prior teaching an inhaler containing a cake is U.S. Patent No. 1,950,925 to Fredrick Lobl, which discloses nasal inhalers designed to administer medicinal vapors of an active agent, such as menthol (pg. 1, lines 88-90), which is a solid, or any other material that gives off vapors (*Id.*). At page 1, lines 90-96, Lobl teaches that the medicament may be in a cake form, which may be supported by the ribs of the inhaler and permitting a flow of air around the cake and between the cake and the walls of the receptacle. Lobl's teachings do not contemplate the flow of air causing the medicament cake being converted into fine particles (i.e. an aerosolized powder). Thus, Lobl's teachings do not fairly suggest the claimed dry powder inhalation system. It is noted that Applicants' amendment specifying that the composition is in a non-powder cake form and not that it merely comprises a non-powder form overcame the previous rejections based on Yang (U.S. Patent No. 6,505,537).

Upon further consideration it was determined that an obviousness-type double patenting rejection over copending Application No. 12/202,220 could be made, but because the instant application is the earlier filed application and is in condition for allowance, the instant application will be allowed to issue and an obviousness-type double patenting rejection will be made in 12/202,220 as appropriate. See MPEP § 804(B)(1). Thus, claims 6-9 are found to be patentable over the prior art.

Art Unit: 1616

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James H. Alstrum-Acevedo whose telephone number is (571) 272-5548. The examiner is on a flexible schedule, but can normally be reached on M-F ~10am~5:30 pm, and Saturdays.
